- Junior U22 All Around - [mapped to Level 7A, Tum DD mapped 1/2 level lower per AGC Qualifying]
- Senior All Around - [mapped to Level 8, Tum DD mapped 1/2 level lower per AGC Qualifying]

## All Around Champion Athlete calculation:

- For athletes to be eligible they need to achieve the minimum requirements for at least 2 different individual disciplines
- Athletes who achieve requirements in an International division are only considered for International All Round Awards
- Athletes receive points from the preliminary round (50 for 1st to 1 for 50th if they achieve the minimum DD requirements of the level or equivalent minimum aligned level for International stream)
- Athlete's points for each discipline are discounted by 5% for each 1/2 level it is below the athlete's highest competed level or equivalent minimum aligned level for international stream
- Athlete's points are added to give a total score
- In case of a tie, each score for the athlete is converted to a percentage of the winning result for their gender and division and the total of all percentages is added. The highest total percentage wins tie break. Percentages are used to equalise scores to remove bias of one discipline result above another discipline result.

## Club Team Competition Rules:

- The club team scores will be calculated from the preliminary competition results only. Synchronised Trampoline is not included in the Club Team Competition
- Only athletes who have successfully achieved the minimum DD requirement for the level/aligned level they are competing in can receive points for their club

## For team points calculations only:

If an athlete has not met the minimum DD requirements, then all athletes placed below the athlete at fault move up one placing, and the appropriate team points are allocated to their clubs

- The first placing, that has achieved the minimum DD requirements, of each event after the preliminary competition will receive 10 points. 2nd place to 10th place will receive 9 points to 1 point respective of their preliminary placing
- Only the club's highest placed athlete's score will count for the club score in each event

A club's best performing athlete's points for each event is added together to obtain the club score with the following allowances:

- **39** best of the **60** possible events count towards the Overall Champion Title
- **13** best of the **20** possible events count towards each of the Discipline Champion Titles
- **5** best of the **6** possible events count towards each of the Levels Champion Club Titles
- The club with the highest score is the winner. In the case of a tie, a tie-breaker rule will be applied

In the case of a tie, the club with results from the greatest number of different disciplines for the particular award being contested is the winner

- If clubs are still tied at this point, then the club with the greatest number of counting points for the particular award being contested is the winner

A maximum score can be achieved of:

- **390** points for the Overall Champion Club Title
- **130** points for each of the Discipline Champion Club Titles
- **50** for each of Levels 1, 1\_8U, 2, 2\_8U, 2A, 3, 3A, 4, 4A, 5, 6 and 7 Champion Clubs
- **250** points for the Elite Champion Club (i.e. 5x50 pts max)
